Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-9 are rejected under 35 U.S.C. 102(e) as being unpatentable over Silverman et al. (U.S. 6,625,583).

Silverman et al. disclose a system and method for wireless real-time transmission of financial stock graphs comprising:

- ♦ entering data into a hyper text transfer protocol transmission servo module of a financial quotation terminal from a subscriber's location supported by a wireless markup language through a mobile network (col.1, line 65-col.2, line 15);
- ♦ reading said data stored in a database through a real-time graphic generating module according to a specific financial commodity (col.3, line 15-col.6, line 59);
- ♦ translating and compressing the read data into a graphic file at said subscriber's location with a wireless bitmap format established by the wireless application protocol consortium said graphic file containing a graphical two-dimensional plot of said read data (col.1, line 65-col.2, line 15);
- ♦ transferring the graphic file from said subscriber's location to far-end terminal through said hyper text transfer protocol transmission servo module (fig.1);

Art Unit: 3628

◆ wherein the subscriber's location communicates with the hyper text transfer protocol transmission servo module through a wide area network or Ethernet link (it is inherent, in a networking environment, to communicate to a hyper text transfer protocol transmission servo module via either a wide area network or Ethernet link); and

◆ wherein the mobile terminal is a personal digital assistant (PDA; fig.1).

Response to Arguments

3. Applicant's arguments with respect to claims 1-9 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
